

IDENTITY • DATA PROTECTION • SECURITY OPERATIONS

Cloud Security Engineering on Google Cloud

Protect cloud workloads with identity-first, evidence-driven security.

Google Cloud **Professional Cloud Security Engineer**

LEARN • PROVE • CERTIFY • ADVANCE

Security Becomes an Architecture

Control Access

Apply least privilege, federation, and zero-trust patterns with precision.

Protect the Data

Design encryption, secrets, boundaries, and sensitive-data controls.

Detect and Respond

Strengthen posture, visibility, automation, and incident readiness.

IDEAL FOR Cloud, security, and platform professionals protecting Google Cloud.

40 HOURS • HANDS-ON LABS • CERTIFICATION-ALIGNED

Design confidence into every cloud layer.
