

MACHINE LEARNING • MLOPS • GENERATIVE AI

Machine Learning and MLOps on Google Cloud

Build, deploy, and govern ML systems that improve after launch.

Google Cloud **Professional Machine Learning Engineer**

LEARN • PROVE • CERTIFY • ADVANCE

Make Models Production-Ready

Engineer the Lifecycle

Connect data, experiments, pipelines, metadata, and governance.

Serve with Confidence

Select scalable deployment patterns for predictive and generative AI.

Monitor What Matters

Detect drift, evaluate quality, and sustain trustworthy performance.

IDEAL FOR Data scientists and ML engineers advancing into production AI.

40 HOURS • HANDS-ON LABS • CERTIFICATION-ALIGNED

Build AI that keeps earning trust.
